

SOUDAL

ALL SEALING • ALL BONDING ALL SURFACES • ALL MATERIALS

SOUDAL FIX ALL is a new generation hybrid polymer product based on Soudal SMX technology. It excels at all sealing and bonding applications with good flexibility and high adhesive strength. It is paintable, can even work underwater, and is harmless to health and the environment. Fix All is a one-product solution which works perfectly with most materials.

ANTI FUNGAL

WEATHER-PROOF

WORKS ON WET AREAS

ALL SURFACES

STRONG ADHESION

PAINTABLE

FLEXI

MULTI USE

Our most versatile product features great flexibility and elasticity, perfect for sealing joints and bonding stuff! With its added anti-fungal properties, Flexi is an uncompromising product for any application.

Construction sealing • Heavy-duty bonding • Sanitary applications • General purpose • Underwater repairs • Automotive • Marine • Industrial

CRYSTAL

SUPER CLEAR

The 100% Crystal Clear sealant and adhesive for applications where looks matter. Great for bonding glass to glass, or anything requiring invisible sealing and bonding with a transparent product. Can be used for foodsafe applications.

Construction sealing • Invisible bonding • Foodsafe applications • Underwater repairs • Sign-making • Automotive • Marine • Industrial

TURBO

SUPER FAST

Our high strength adhesive can be used to bond heavy materials in as quickly as 20 minutes! Achieving such a strong bond in such a short time is no easy feat, but what's more impressive is in how long the product lasts.

Construction bonding • Super fast performance • Heavy-duty bonding • General sealing • Automotive • Marine • Industrial

XTREMEPOWER

EXTREME TACK

The most extreme of the Fix All Range, you can count on this adhesive to fulfill all your bonding requirements in the most simple ways. Just apply and press, and the extreme initial tack ensures it holds up without sliding.

Construction bonding • Super strong performance • Extreme initial tack • Heavy-duty bonding • Automotive • Marine • Industrial

ALL SEALING • ALL BONDING ALL SURFACES • ALL MATERIALS

PROPERTIES: CAN BE PAINTED ALMOST IMMEDIATELY • EASY TO APPLY • BONDS ON WET SURFACES • CAN WORK UNDERWATER • UV STABLE • NO SMELL • SOLVENT FREE • NO SHRINKAGE • WEATHER RESISTANT • SUITABLE FOR INTERIOR • SUITABLE FOR EXTERIOR • CURES FAST • NO PRIMER NEEDED • NATURALLY ANTI-FUNGAL • PERMANENTLY ELASTIC • HARMLESS TO HEALTH • HARMLESS TO ENVIRONMENT

SUITABLE MATERIALS INCLUDE: STONE • CONCRETE • MARBLE • GRANITE • LIMESTONE • TRAVERTINE • CORK • ROCKWOOL • POLYSTYRENE • GYPSUM BOARD • GLASS • MIRROR • PORCELAIN • TILES • BRICKWORK • STEEL • LEAD • ZINC • COPPER • ALUMINIUM • BRASS • PVC • POLYCARBONATE • POLYESTER • POLYAMIDE • ABS • WOOD • TIMBER • PLYWOOD • MDF • PLASTERBOARD • FIBREGLASS
