SOUDAFOAM GUN

ONE-COMPONENT, SELF-EXPANDING, GUN-TYPE POLYURETHANE FOAM

Soudal Soudafoam Gun with CFC-free propellant is a one-component, self-expanding polyurethane foam with propellants which are completely harmless to the ozone layer. It requires the use of a specialized PU foam gun; this gun allows for ergonomic application and for achieving its large filling capacities. With an expansion value of up to 57x, each 750 ml can of Soudafoam Gun can be expected to create up to 43 litres of cured foam.

PROPERTIES

- Excellent adhesion on most substrates (except PTFE, PE, and PP)
- High thermal and acoustical insulation
- Superb filling capacities
- Excellent mounting capacities
- Excellent stability (no shrink or post expansion)
- Water-resistant
- Sufficient quantities of foam can create a waterproof barrier

APPLICATION

- Installation of window frames
- Installation of doorframes
- Filling of cavities
- Sealing of all openings in roof constructions
- Creation of a soundproof screen
- Mounting and sealing of window doorframes
- Connecting of insulation materials and roof constructions
- Application of a soundproofing layer on motors
- Improving thermal insulation in cooling systems
- Installation of air conditioners
- Bonding of insulation panels

PACKAGING

750 ml pressurised aerosol can, 12 cans / carton

COLOURS

Champagne

SHELF LIFE

18 months in unopened packaging in a cool and dry storage place at temperatures between +5°C and +25°.

- Always store can with the valve pointed upwards

UP TO 43L OF FOAM

EXCELLENT ADHESION

READY-TO-USE
